Specialty Medications

Specialty medications are high-cost drugs that are often injected or infused and require special storage and monitoring. These medications must be obtained through Accredo, Express Scripts' specialty pharmacy by calling Accredo at 1.800.803.2523. Some exceptions apply. These medications are limited up to a 90 day supply. Specialty medications largely fall into the formulary brand category but could also fall into the biosimilar or generic specialty drug category. These medications are subject to the appropriate co-insurance as listed below. Accredo Specialty Pharmacy also offers pharmaceutical care management services designed to provide you with assistance throughout your treatment.

Specialty Medication Copays	Accredo

Specialty Preferred Brand	\$125.00
Specialty Non-Preferred Brand	\$125.00

Generic Policy - Dispense As Written (DAW)

If you choose to buy the Brand name drug when a Generic equivalent is available, you will be required to pay the Generic copay plus the difference in cost between the Generic and Brand name drug.

Maximum Allowable Benefit

This plan has a **\$5,000 lifetime** maximum allowable benefit on **Fertility Medications**. The maximum allowable benefit is an amount set by the health plan professionals limiting the prescription benefits available to a member or family. Once the maximum is met, members are required to pay out of pocket for future prescriptions.

Maintenance Drug

A medication that is used for chronic health conditions on an ongoing or long-term basis (e.g., antihypertensive medication taken daily to control high blood pressure). The Prescription Drug Card Program will only cover maintenance medications through the Express Scripts Mail Order pharmacy or your local Walgreens pharmacy. Maintenance medications are those that treat an ongoing condition such as high blood pressure, diabetes or contraception. You can get up to two fills (original and 1 refill) from your local participating pharmacy. After that, the program will cover the medication **ONLY** if you order it from the Express Scripts Mail Order pharmacy or a local Walgreens Pharmacy.

Preventive Medications

Your employer's plan is subject to the Affordable Care Act (ACA) which requires the coverage of a number of preventive items and services at 100% and ensures these items and services are not subject to deductibles, maximum out of pockets, or other limitations such as annual caps or limits. You may contact RxBenefits Member Services at 1.800.334.8134 if you have specific drug questions or register at express-scripts.com to check drug costs and coverage.

If enrolled in the **PPO Plan**, the medications on the **Standard Generic and Brand Preventive Medications List** are covered at no cost to you and will bypass the Deductible.

Formulary

A list of Federal Drug Administration (FDA) approved Prescription Drugs and supplies developed by a Pharmacy and Therapeutics Committee, and/or customized by Express Scripts or RxBenefits. This list reflects the current clinical judgment of practicing health care practitioners based on a review of current data, medical journals, and research information. In your prescription drug coverage, the Formulary Drug list is used as a guide for determining your costs for each prescription. Drugs not listed on the National Preferred Formulary may not be covered. Your formulary is National Preferred.

The following lists are not all-inclusive, but rather are lists of the most commonly used prescription drugs. These lists are subject to change. The Express Scripts formulary provides an up-to-date list of medications that may be covered by the program. The Express Scripts formulary may be found online at express-scripts.com. You may also contact RxBenefits Member Services at 1.800.334.8134 to learn whether a specific drug is covered.
