

See a dentist anywhere

Virtual dentistry options for Delta Dental members

With virtual dentistry, your employees always have a Delta Dental dentist at their fingertips. Delta Dental¹ offers virtual assessments from in-network dentists as a covered benefit for both PPO and Premier plan members.

Both photo and video-based options are available to meet employees' needs, whether it be a photo report in under 24 hours or a scheduled live video visit with a dentist.

Which virtual dentistry option fits my needs?

Photo assessments

Great for employees looking for expert advice on a non-urgent dental need or an overall oral health assessment

Video visits

A good choice for employees who want to ask a dentist questions in real time or are suffering from a painful condition

Keep your employees healthy with greater access to quality dental care.

Virtual assessments help them save time, minimize absenteeism and provides access to care for employees who have a hard time making it to the dentist. Virtual dentistry can be a great way to encourage your employees to use their benefits, which can lead to healthier outcomes.

Your employees can:

- Receive a **fast and easy dental assessment** without a long wait **from anywhere in the U.S.** — even when the dentist office is closed.
- **Address non-urgent dental issues** to understand the severity of an issue and get treatment options.
- **Save time** and experience the convenience of accessing dental care without leaving the comfort of their home, especially if their dentist is far away or there's a limited number of dentists in their area.
- Take the first step in getting care and proactively **get ahead of an issue before it worsens.**
- **Get prescriptions when needed** with video visits.

Here's what else you need to know:

- There are no plan design changes or new contracts for you to sign.
- There are no additional fees for your group to pay.
- For plans that cover diagnostic and preventive services at less than 100%, the platform will calculate the member's coinsurance at the time of service. It will clearly display how much an employee owes, if any.
- Ineligible members and members who choose not to use their benefits may choose to pay \$35 out of pocket for a virtual dental assessment. This option may be useful for members whose plans don't cover virtual dentistry.²
- The platform is HIPAA-compliant, and all health information stored and sent through the platform is encrypted, safe and secure.

Let employees know about virtual dentistry today.

Employees can register at **www1.deltadentalins.com/members/virtual-dentistry.html**. You can create awareness by sharing optional marketing materials with employees. Find these materials at **deltadentalins.com/administrators**.

1. Dental of California, Delta Dental of New York, Inc., Delta Dental of Pennsylvania, Delta Dental Insurance Company and affiliated companies. Delta Dental is a registered trademark of Delta Dental Plans Association.
2. Any applicable deductibles, maximums and coinsurance apply. Virtual dental assessments don't count toward frequency limitations for diagnostic exams. Virtual visits will not accrue against plan year maximums for members with a D&P Maximum Waiver®.
