2025 Express Scripts National Preferred Formulary List

The 2025 National Preferred Formulary drug list is shown below. The formulary is the list of drugs included in your prescription plan. Inclusion on the list does not guarantee coverage.

The following list is not a complete list of over-the-counter [OTC] products and prescription medical supplies that are on the formulary. The only OTC products and prescription medical supplies that appear on the list are in contracted classes.

PLEASE NOTE: Brand-name drugs may move to nonformulary status if a generic version becomes available during the year. Not all the drugs listed are covered by all prescription plans; check your benefit materials for the specific drugs covered and the copayments for your prescription plan. For specific questions about your coverage, please call the phone number printed on your member ID card.

KEY

[INJ] – Injectable Drug

[OTC] – Over-the-counter Product

[SP] – Specialty Drug

Brand-name drugs are listed in CAPITAL letters.

Example: ABILIFY MAINTENA

Generic drugs are listed in lower-case letters. Example: ibuprofen

For the member: FDA-approved generic medications meet strict standards and contain the same active ingredients as their corresponding brand-name medications, although they may have a different appearance.

For the physician: Please prescribe preferred products and allow generic substitutions when medically appropriate.
